

## **IT FIRM MARKS BIRTHDAY WITH NEW WEBSITE**

The IT Consultancy firm Revell Research Systems is celebrating its 21st birthday with the launch of a new website.

Revell, of Broadfields, Exeter, can now be found online at [www.rrs.co.uk](http://www.rrs.co.uk).

The firm specialises in strategy development, systems and network engineering and software development. It was set up in 1985 by Alastair Revell, shortly before he left Exeter to start a mathematics degree at Birmingham University.

He graduated in 1988 and returned to the city to expand the business. The firm has recently taken on Fiona Burgess as its business development manager.

She said: "I am really looking forward to helping the business to expand.

"Our challenge is to grow without compromising the standards that we have become renowned for."

The website was produced internally by Revell Research Systems, which produces websites as part of the company's work with clients in the UK and abroad.
